

PRESS RELEASE

Another student friendly option in times of COVID

CBSE launches the

ONLINE DUPLICATE ACADEMIC DOCUMENT SYSTEM (DADS)

25th June, 2021 New Delhi

CBSE gets many requests from students for duplicate copies of their academic documents either because they are lost or are mutilated. As of now, these students invariably approach concerned Regional Offices in person, apply on a prescribed form and deposit required fees in the banks or alternately send forms and bank drafts by post.

Looking at the prevailing COVID conditions and predicaments of students, IT Department has come up with a safe, quick and viable solution through a recently developed in-house portal named **DADS (Duplicate Academic Document System)**.

The facility will obviate the human contact and physical presence of the students required so far and cut short the travel, time and energy spent by students and parents who can now obtain duplicate marksheets, passing certificate, migration certificate through this online portal.

Students will have to log on to website www.cbse.nic.in and apply on the link <https://cbseit.in/cbse/web/dads/home.aspx> for the procedure and options.

Regional Offices, on receipt of the applications, will print academic documents and dispatch them through speed post. A tracking system will enable the students to trace the status of application and dispatched details. This portal however will give option to students for both digital copy as well as printed copy of the academic document to choose from.
